

TUUDI SOARING EAGLE

The bald eagle is a symbol of America, a nation strong, bold, courageous, and free just like our Wild Sheep organization. This eagle sculpture is a special copy just for the Wild Sheep Foundation show for the live auction Saturday Night Banquet, January 20th, 2024 in Reno, NV! The life-size bronze eagle, limited edition of 36 (special copy) stands 91" tall weighing approximately 300 pounds which includes inner stainless-steel structure for added strength mounted on a beautiful hardwood base. Entirely made in America.

Come see at the 2024 Sheep Show® in booth #2645 and check out our bronze creations. You can also check out our website at: www.wildernesscreations.com

This project was a product of love created with lots of blood, sweat, & tears by myself & Sue. We sincerely thank-you for the many years support.
